

COVIDLib AI Pipeline

Type: Processing
Version: 0.0.1
Date: 24/04/2020
Author: Athon Millane

- to do:
- define full pipelines in **pipes.py**
 - update to recieve data dictionary when available
 - define to accept parameters in config file **config.json**
 - full examples in jupyter notebooks
 - add unit testing..?
 - write documentation
 - accept pull requests
 - consider more sophisticated imputation / multiple imputation
